- **15:45 Workshop Session 2 — Workshop B or A**

Delegates rotate to their second workshop

- **17:30 Close & Cocktails**

- **18:30 Finish**

WORKSHOP DESCRIPTIONS

WORKSHOP A

"Building Bridges in Borsetshire" Requirements Engineering for High-Integrity Systems

90 mins — with Capgemini experts

Teams navigate from a high-level statement of user needs to a compliant solution using satisfaction arguments, aiming to minimise stakeholder interviews. Includes a short presentation followed by a hands-on exercise, with teams presenting their solutions at the end.

WORKSHOP B

"Assurance à la Carte" Architecting the Mid-Life Upgrade

90 mins — with AdaCore & Rapita experts

Explore the diverse ways to develop and verify high-integrity software. This hands-on session challenges teams to design a lifecycle and certification plan for a system upgrade, proving that even under strict regulatory and corporate constraints, there are multiple paths to success. Which one will you choose?
